

End of Life Options Template

The template form below is a guide for yard owners and horse owners as to the type of form you could complete in order to ensure that all parties are fully informed as to the wishes of an owner in the event of death of an equine in your care. This is highly recommended, but not restricted to, those offering retirement livery. You must remember that accidents and illnesses can occur at any time. It is important, for swift action, to be aware of the owner's choices in such circumstances.

These elements are recommended to be included as part of a retirement livery contract and can also be included on the appendix of any other long term livery agreement.

These forms should be completed upon arrival and stored securely, yet accessibly on the yard to be referred to as and when necessary by the relevant people.

This form is in no way a livery agreement, just a source of information for parties involved.
