

Health and Safety Policy Template

The template below is a guide for yard owners as to the type of policy you need to produce as a Health and Safety policy for your yard. All yards are different so its important to ensure your policy is tailored to your yard and covers any activities you offer- such as instructions, events, clinics- and deals with these accordingly within a singular policy. There are personalisations required where indicated in bold.

A copy of the policy should be retained on the yard to be referred to as and when necessary by the relevant people.
